

IOSCO WORLD INVESTOR WEEK 2021 WEBINAR

October 4, 2021
13.00-15.30 pm (CEST)

GLOBAL WEBINAR ON SUSTAINABLE FINANCE

Environmental, social and governance objectives for well-informed and protected investors

Sustainable finance is one of the key topics of the 2021 edition of the WIW in light of its growing connection with the retail investor's world: on the one hand ESG investments may become the reference mainstream in the financial services sector in the near future (for political and social reasons), on the other hand it is crucial that any evolution/development occurs in parallel with a greater awareness of their characteristics by retail investors.

Financial industry and regulators are fully involved in a process of transition to a sustainable economy that affects both developed and emerging countries. IOSCO works in this area at different levels: Sustainable Task Force, Committee 8 on Retail Investors, Growth and Emerging Markets Committee.

The aim of the global webinar organized by Consob for the WIW 2021 is to record the state of the art and discuss developments in the sector, with a view to analyse the main implications in terms of investor protection and education.

Keynote speech (13:00 – 13:15)

Erik Theeden

Director General of the Swedish FSA and Chair of the IOSCO Task Force on Sustainable Finance
